

Set own call rates & make money

BuzBit allows you to start your own Telco company, set call rates and allow site members to connect with one another.

FREE BuzBit Phone Number

Members signup and order a FREE BuzBit phone number to start receiving calls. Members may call your new number through their web browser or from a standard phone.

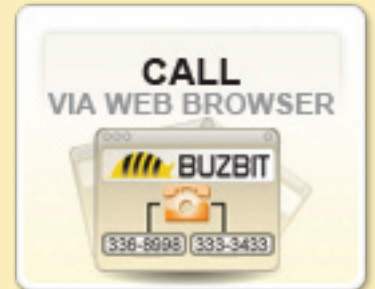

International calls via browser

Expand your web services and allow members to make calls internationally. Using just a web browser, they will save big money calling from your website.

Allows an easily connection

Community websites use BuzBit to allow members to call each other via the browser. This is a save and affordable way allow users to connect with one another.

Everyone is anonymous

Worried about keeping your identity or phone number private? Use BuzBit and call anonymously to anyone you like. BuzBit calls will not show up on your phone bill!

Invite multi-party calls

Need 3 or more people to join the call no problem. BuzBit allows for multi party calling even to cell phones. To find out more and to get started with your new BuzBit Telco business.
